

**DRIVING
INNOVATION,
EXPERTISE AND
SUSTAINABILITY
THROUGHOUT
THE NORTH
WEST.**

BASED IN KARRATHA, 6 STAR GROUP IS AN AWARD-WINNING BUSINESS WHICH DELIVERS A BROAD RANGE OF INDUSTRY LEADING SERVICES IN THE SOLAR RENEWABLES, ELECTRICAL, ENGINEERING, AND BUILDING & MAINTENANCE SECTORS.

Founded by Managing Director, James Corea, the 6 Star team services the Pilbara and remote north west regions of Western Australia. All projects are managed and executed in house, which ensures a seamless delivery and a consistently high standard of quality control.

We aim to deliver fit-for-purpose solutions that are cost effective, efficient and prompt – making things easier for our clients and reducing our carbon footprint wherever we can. Everything we do is underpinned by a commitment to keeping ourselves and others safe.

6 Star Group is committed to making a positive impact locally – we employ and train local Indigenous and non Indigenous staff, we support local community and sports groups and ensure we are always engaging with our local traditional owner groups and all other traditional owner groups.

6 Star Group Australia acknowledges all the traditional custodians of all the land that we work, live, and operate our business on, and pays respect to their elders, past, present & emerging.

A FOCUS ON INNOVATION

AT 6 STAR GROUP, WE ARE CONSTANTLY ENGAGED IN DESIGN, RESEARCH AND DEVELOPMENT TO ENSURE WE MAINTAIN OUR COMPETITIVE AND INNOVATIVE ADVANTAGES.

We also focus on system integration and implementation of the most up-to-date technologies. In 2021, 6 Star Group was awarded 'Best Innovation' by the Karratha & Districts Chamber of Commerce & Industry (KDCCI), sponsored by Rio Tinto.

OUR MISSION

TO BE THE MOST VALUED CONSTRUCTION, MAINTENANCE, ELECTRICAL, SOLAR AND RENEWABLES COMPANY IN THE PILBARA AND NORTH WEST.

OUR VISION

To pave the innovative pathway in the Pilbara and the North West.

OUR VALUES

Professionalism, expertise, innovation, integrity, satisfaction and safety.

OUR SERVICES

- Renewables - Solar - Off Grid
 - Electrical
 - Building & Maintenance
 - Engineering
 - iLOQ Access Control
-

RENEWABLES

6 Star Group has enormous capability in the renewables space, offering great competitive advantages, system integration, innovative system design and engineering expertise.

Whether you're looking to reduce your power bills, lower your environmental impact, provide reliable power in remote locations, or reduce your overall energy consumption, we can offer solutions for a wide range of sustainable and renewable energy systems.

Our team can replace aging electrical infrastructure with solar lithium diesel microgrids. We can take you off the grid and significantly lower your energy costs. We can also benefit cattle stations, roadhouses and other predominantly diesel generated energy sources.

At 6 Star, we have our own in-house, licensed and accredited design and installation team. Our staff have developed countless solutions and strategies to combat a wide range of challenges. Our systems are designed to withstand the harshest conditions in the world, in order to provide free, clean energy from the sun.

We have installed a solar and tesla battery system on our building to demonstrate what can easily be achieved on other businesses or sites. Our power bill is now zero and we are not dependent on the grid.

ELECTRICAL

Our dedicated team of in-house electrical professionals can handle a wide variety of electrical projects, including, but not limited to, domestic, commercial, industrial, mining, utility, renewable and high voltage. We also specialise in split-system and commercial air conditioning.

We take great pride in having established ourselves as one of the most trusted electrical contractors in the Pilbara and North West. Our broad range of experience, knowledge and skills means that we always get the job done right the first time.

Whether it's a small-scale domestic job or a large-scale commercial/industrial project, we hold ourselves to a very high standard, and prioritise safety on every job.

BUILDING & MAINTENANCE

6 Star Group provides solutions in solar farm construction, commercial solar installation, home, bathroom, or business renovations, shed construction, landscaping, concreting, site mobilisation, portable building installation and general building maintenance.

Our local team understand the challenges of building and renovating in our region, and we use our experience to complete thorough, high quality work. Every job is delivered safely, on time, and within budget.

ENGINEERING

Good engineering is the foundation of all successful renewable and construction projects.

6 Star Group offers engineering options and solutions for all types of projects. We employ a team of engineers who have over 40 years' combined experience working in the Pilbara, and expertise in the electrical, renewable, civil and construction sectors.

Our engineering services include, but are not limited to, 2d drafting, 3d modelling, electrical, renewable, structural, mechanical & civil engineering. These capabilities give us the knowledge and the freedom to create better, more innovative ways of designing and executing renewables, and other projects within our region.

SITE MOBILISATION & TEMPORARY OFFICES

One of the biggest challenges in our remote region is the mobilisation to sites that are located far from any towns or existing infrastructure. In many cases, services infrastructure is also required, including electricity, potable water, grey water, waste, and black water treatment.

6 Star Group has extensive experience in the set down of site offices and toilets/ablutions, the installation of dome workshops and camps, and connection of all plumbing, electrical and air conditioning. We also provide remote site maintenance and 24/7 emergency callout services.

Being local to the Pilbara, we understand the harsh conditions and the level of reliability that is required in our remote regions. This knowledge guides the development of our management plans, and the selection of suitable products that will withstand the elements.

ILOQ – ACCESS CONTROL SYSTEMS

6 Star Group is an agent for iLOQ, a global digital access management company based in Finland that has revolutionised the access and locking industry.

Suitable for domestic and commercial applications, iLOQ provides high quality, self-powered digital locking and mobile access management solutions.

iLOQ has developed and patented their own innovative technology and software, which enables electronic locking without batteries, keys or cables. From padlocks to switchboard locks, cam locks and traditional door locks, iLOQ has a solution for everything – scalable to any size.

CAPITAL/PROJECT FUNDING

Running a business in the Pilbara and North West is often associated with financial pressure and high operational costs. 6 Star Group has existing relationships with reputable finance companies, which can assist with acquiring the necessary capital or project funding.

Our funding partners offer different types of funding for all projects, from personal green loans for residential solar, low doc commercial finance for solar and other infrastructure projects, to long-term finance options upwards of \$1M. Regardless of the size of the project, there is likely a solution to get it over the line.

PLANT AND EQUIPMENT

To maintain our competitive pricing and execution timelines, 6 Star Group has all the plant and equipment required to complete projects within our capabilities.

We also have good working relationships with local plant and equipment suppliers, and we can source additional plant and equipment at cost-effective prices.

COMMUNITY VALUES

**AS A KARRATHA-BASED, FAMILY BUSINESS,
WE HAVE A VERY STRONG LOCAL FOCUS.
WE CHOOSE TO PRIORITISE LOCAL ECONOMIC
DEVELOPMENT WHERE WE CAN, IN ALL OF
OUR BUSINESS DECISIONS.**

Our recruitment strategy is to employ people who live in Karratha, or who are willing to relocate to the Pilbara, rather than engaging FIFO workers.

We strive to support other Karratha businesses by shopping locally – exhausting all local options before looking elsewhere for the supply of goods or services. This aligns with our values and creates more opportunities within our region.

We are dedicated to supporting local not-for-profit and sporting clubs financially, and with in-kind donations. We believe that these clubs are the backbone of our community.

Karratha is a fantastic place to live and work, due to the efforts and contributions made by many local people and businesses. We are proud to support our local community and call Karratha home.

OUR INDIGENOUS ENGAGEMENT

6 Star Group Yarnda Gana owned by parent companies 6 Star Group Australia (50%) & Wirlu Murra Enterprises (50%) is focused of creating sustainable economic development for local Indigenous people. Our focus is to provide traineeships, apprentices and mentoring to create sustainable career opportunities.

Our Indigenous leaders are focused on making a positive difference, Uncle Harry has an on the ground approach, proactively engaging with local Indigenous community groups and Indigenous people to work out where we can fit in, whether its supporting the community in the next project, creating opportunities for their members or working with them to execute projects we are focused on a successful outcome.

Our measurement of a successful outcome is empowering all Indigenous communities and their people creating a difference and making change to their specific needs within that community or with their members as well as training and developing their skills on our journey so that they obtain the skills and qualifications required to create a sustainable career in primary industry or career pathway of their choice

A HIGHLY SKILLED WORKFORCE

6 STAR GROUP EMPLOYS IN-HOUSE ENGINEERING, PROCUREMENT, CONSTRUCTION, AND MANAGEMENT TEAMS.

Currently, we have a 20% Indigenous participation rate. All of our employees are locally based – we only employ local trades, local apprentices, and other local staff.

6 Star is committed to building a highly skilled, knowledgeable and professional workforce. When recruiting new staff, we look for people who we believe will be a good fit with the 6 Star culture, and who will align with our company vision, mission and values.

We have a strong focus on training and developing our employees to enable them to reach their career goals. We offer apprenticeships, traineeships and on-the-job training to ensure that everyone has the opportunity to be engaged and challenged at work.

In order to secure additional labour when required to fulfil new contracts, 6 Star benefits from its relationships with specialised labour supply companies. We are confident that we can source highly skilled and qualified people who share our vision of successful project delivery for our clients.

AWARDS

2021 Tesla Asia & Pacific 'Installation Excellence' Award
2021 KDCCI 'Best Innovation' Award
2021 KDCCI 'Apprentice of the Year' Award, 6 Star Group – Eli Whitbread
2019 Karratha Young Professionals 'Best Small Business of the Year' Award

James Corea
Managing Director

James is a natural business leader with an entrepreneurial spirit and plenty of drive to succeed. He is also recognised for his desire to help others and to make a positive difference in the Karratha community. He established and built 6 Star Group from the ground up, and he continues to manage the entire operations.

James is also a licensed electrical contractor and a Clean Energy Council accredited on-grid and off-grid installer.

He has strong family and local community values – as a long-term Karratha resident, he is committed to supporting the local community in every way possible.

Marshal Harry Mowarin
Indigenous Development Manager & Director

Ngarluma Elder, Marshal Harry Mowarin (Uncle Harry), is responsible for leading 6 Star's Indigenous focus.

Uncle Harry is passionate about Indigenous engagement, opportunity and employment. He mentors and supports our Indigenous team members and promotes a pathway for them to enhance their career prospects through apprenticeships, traineeships and other qualifications.

Having grown up in the Pilbara, Uncle Harry has positive working relationships with traditional owners groups. Under his guidance, the entire 6 Star team strives to operate in a manner which is culturally sensitive and respectful of the land on which we work.

LET'S TALK

OUR TEAM WELCOMES A DISCUSSION ABOUT YOUR NEXT PROJECT.

Come and visit us at our innovative, purpose-designed premises. We design and implement all our system integration & strategic planning on site.
